	Title
1	APPARATUS AND METHOD FOR PRESENTING NAVIGATION INFORMATION BASED ON INSTRUCTIONS DESCRIBED IN A SCRIPT
2	Computer user interface architecture that saves a user's non-linear navigation history and intelligently maintains that history
3	Information processing apparatus and method as well as providing medium
4	Method and system for printing a document
5	Method and apparatus for retrieving information from semi-structured, web-based data sources
6	Development system providing HTML database control object
7	Intellectual property library management system
8	Method and apparatus for linking designated portions of a received document image with an electronic address
9	System and method for query processing and optimization for XML repositories
10	Production and inventory control system and computer program product for controlling production and inventory
11	Knowledge system with distinct presentation and model structure
12	Background advertising system
13	Method of distributing documents having common components to a plurality of destinations
14	Translation management system
15	Server-side scripting language and programming tool
16	Control apparatus
17	System, method and computer program product for achieving local number portability costing support
18	System for presenting and managing enterprise architectures
19	On-line image caching control for efficient image display
20	Computer product for integrated document development
21	Integrated document development method
22	Apparatus and methods for use of access tokens in an internet document management system
23	Method and apparatus for implementing web pages having master borders
24	Method for creating structured documents in a publishing system
25	Drug document production system

	Title
26	Background advertising system
27	On-line menu updating for an electronic book
28	System and method for language extraction and encoding utilizing the parsing of text data in accordance with domain parameters
29	Computer-aided project notebook
30	Apparatus and method for producing fulfillment pieces on demand in a variable imaging system
31	Method and apparatus for generating multi-media presentations
32	System, method, and computer program product for comparing text portions by reference to index information
33	Drug document production system
34	System and method for storing and managing information
35	Scheduling system for use between users on the web
36	Computer network system and method for process safety management (PSM) including facilitator display and multiple participant workstations
37	Collaborative web browser
38	System and method for interactive visualization, analysis and control of a dynamic database
39	Distributed database using indexed into tags to tracks events according to type, update cache, create virtual update log on demand
40	Information retrieval system in an on-line network including separate content and layout of published titles
41	Distributed work flow management
42	Style sheets for publishing system
43	Browsing and manipulating objects using movie like icons
44	Attention brokerage
45	Methods and apparatus for dynamic classification of discourse
46	Drug document production system
47	Event management system
48	Method and apparatus for interactively creating a card which includes video and cardholder information

	Document ID	Inventor
49	US 5608857 A	Ikeo; Joji et al.
50	US 5602993 A	Stromberg; Fredrik
51	US 5144555 A	Takadachi; Masato et al.

	Title
49	Document preparation support system using knowledge database to determine document layout
50	Method and system for revising data in a distributed data communication system
51	Method and apparatus for supporting of making formatted document
